IDEAS TO SHARE

In our Collaboration Space, there is a new topic every day to share ideas. Students have expressed how much they enjoy adding to this space because they said it feels like our "Community Circle" that we used to do every morning in person. It's one way to stay connected daily. Responses make me smile, laugh, or warm my heart every day! 😊 Here is what we have shared so far:

You'll notice there are two options for sharing. I love to offer choice so they can share ideas on one or the other. Most days, they write something for both! I set up a table with student's names listed so each student has their own space. I always add my ideas for the day too to serve as a model.

*If you do not have a Collaboration Space, the same activity can be accomplished on a blog through comments, a [Padlet wall](), a shared document in Office 365 Word or GoogleDocs, for example.
